## Summary:

- Experienced with JavaScript, Java, Python, and Objective-C, HTML and CSS mainly for front end development
- Familiar with C/C++, OOP concepts and Unix/Linux environments
- Enjoys solving challenging tasks and learning new concepts

## Work Experience:

**Monolith Interactive:** — Junior Software Developer January 2014 – April 2014

- Developed both native and PhoneGap mobile apps with core data and server calls
- Worked in a highly agile environment with many meetings a day and constant updates
- Contributed to many projects on tight deadlines

**Fixmo Inc (Acquired by Good Technology):** — QA April 2013 – August 2013

- Performed daily regression testing on iOS and Android devices
- Reported all issues on Atlassian Jira, specifying the component, version and importance
- Created test suites for new functionalities on testrail
- Wrote automation scripts with Cucumber and Calabash

## Technical Projects:

### Monolith Contributions:

#### **Plantola:**

*Plant sharing app with facebook connectivity*

- Worked on the live feed, plant adding interface and comment posting using Objective-C

#### **Vive Audio:**

*Mobile form filled out for new customer orders*

- Programmed interactive forms and animations using JS, HTML and CSS
- Used Sencha Touch to create the interface and PhoneGap to port to mobile devices

#### **Surveillant Solutions:**

*Mobile app that aids detectives in taking cases*

- Created login screen, live case feed, evidence submission and photo taking functionality using Sencha Touch and PhoneGap

### Personal Projects:

*Mindmapp (in development):*

*Note taking app that stores notes as nodes and connects them*

- Written in Python using the Kivy library

#### **Brainchild, an Adventure of Sorts:**

*2D platformer and built-in level editor*

- Implemented inheritance, polymorphism and other object oriented concepts
- Used the Java swing and awt toolkits

## Education:

Candidate for Bachelor of Software Engineering  
Ontario Secondary School Diploma Don Mills CI, Toronto ON

Sept. 2012 – Present  
July 2012
